1st Batch:

Patch Name:
iconnect-update-3.1.4.13.patch

Installation Procedure:
1. Download the file attachment (**iconnect-update-3.1.4.13.patch**). Save it on your computer. Do not open it, just save it.
2. Run the iConnect Client System.
3. On the "Help" menu, pick "Install Updates" and click "Import Update".
4. In the iConnect folder, select the **iconnect-update-3.1.4.13.patch**. Click **Open**. (the computer would appear to hang for a bit, wait for the item to appear on the window)
5. After importing, click the **iconnect-update-3.1.4.13.patch** check box.
6. Click Install and Ok. (a restore point would be created, follow the creation process by clicking on OK or Yes) Note: Progress bar would appear to be not moving, but it is installing, wait for the progress bar window to exit and then relaunch your iConnect program

2nd Batch:

Patch Names:
Recadv_2_0.component.patch
Retann_3_1.component.patch
Settle_1_0.component.patch
Orders_4_0.component.patch

Installation Procedure:
1. Download and extract the file attachments. Save it on your computer. Do not open it, just save it.
2. Run the iConnect Client System.
3. On the "Help" menu, pick "Install Updates" and click "Import Update".
4. Browse for the schema patch, highlight it and click on Open. Repeat steps 3 and 4 for all of the schema patches. There is a total of 4 schema patches.
5. After importing, click on the schemas' checkboxes.
6. Click Install and Ok.
Note: There would be an automatic restore point creation, just click on Ok on it.

3rd Batch:
